

Quick Installation Guide for Lens UPGRADE PACK

Constituent parts of Delivery:

1x Lens; Quick Installation Guide (pdf download)

INSTAR Deutschland GmbH hereby ensures that you will not lose your warranty by installing this additional lens.

Any damages caused by the user by faulty installation are excluded of the warranty.

Step 1: Carefully unscrew the lens from the mount by turning the focus ring counter clockwise..

Step 2: Remove the lens system from the camera.

Step 3: Remove the lens from the focus ring by pushing the lens to the back. If the lens doesn't move please carefully heat up the ring and try again.

Step 4: Take your new lens and push it into the focus ring. In case you are using a wide angle lens please don't push it in all the way!

Step 5: Remount the lens system into the camera.

Step 6: Connect the camera to the power supply and connect it with the network. Now open the webinterface and turn the lens until you can see a clear and sharp picture.

YOUR INSTAR TEAM WISHES
YOU THE BEST WITH YOUR
NEW LENSE!
